

INFORMATION FOR THE DIRECTOR'S LOG

The move of activities into the newly acquired West Potomac Park buildings and the moves resulting therefrom began 10 August 1953. The Organization and Methods Service, the General Services Office, except the Machine Records Branch, the Personnel Office, and portions of the Office of Training have been or are in the process of being moved into these buildings. The Regulations Control Staff, the Office of the Auditor-in-Chief, the Sovmat Staff, Office of Operations, and the Strategic Liaison Division, Plans and Policy Staff, have been moved into the vacated quarters. The majority of the remaining moves are either within a building or to and from interconnected buildings.
